1. This application is in condition for allowance except for the following formal matters:

Claims 12-14 are objected to under 37 C.F.R. 1.75(a) for failing to particularly point out and distinctly claim the subject matter which the applicant regards as the invention. Claim 12, line 5, cites "that when executed over said processor..." but was this intended to be "that when executed *by* said processor..." ? The preambles of claims 13 and 14 refer to "The method recited in Claim 12..." however as shown in the preamble of claim 12, claim 12 states "A stepper for ....". Consequently, the preambles of claims 13 and 14, should be "The stepper recited in Claim 12...". As already cited in paragraph 4 of the previous Office action, claim 14 cites "said *intensity* of said return signal" which lacks clear antecedent basis. The examiner asks the applicant to better claim the limitations cited above. While the examiner understands the intentions of the applicant he feels confusion could be drawn from the limitations cited above.

Appropriate correction is required.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
